IAABO # 193  
242 Elmore Avenue  
Hamilton, NJ 08619

Kevin,

Special Olympics New Jersey would like to recognize the tremendous amount of time and effort put forth by the members of IAABO Board # 193 to make the 2012 Central Basketball League, Central Sectional Tournament, & Spring Sports Festival a huge success. This year, referees from your board officiated over 190 games and did an outstanding job while on site. The efforts of Board #193 members are paramount in running Special Olympics New Jersey events as effectively and professionally as possible. For that we are extremely grateful.

I have received numerous emails from family members and coaches throughout the season stating their appreciation of your efforts. They often complement your members on what a fine job they do while working with Special Olympics New Jersey athletes. Most emails are quick to point out how the athlete feels great about themselves because they were refereed by a "Professional".

By donating your time, you not only serve as an unbiased mediator on the court and provide fair play, but you are also now involved in the worldwide movement to help athletes with intellectual disabilities gain acceptance and respect in their community.

I look forward to working with you and your board again next year to provide the professional referees that our athletes and their families enjoy and deserve.

Sincerely,

Brian Wertz  
Sports Manager
